EDUCATION

Marist College Master of Science in Computer Science Specialization in Software Development	May 2023
CVR College of Engineering Bachelor of Technology	May 2021

PROFESSIONAL EXPERIENCE

Eshift Inc. – Software Developer June 2024 – Present

- Collaborate with the development team to create responsive and visually appealing user interfaces.
- Assist in the implementation of frontend solutions using modern technologies such as C# and JavaScript, ensuring the best practices for UI/UX design.
- Participate in design discussions to provide input and insights on user experience improvements.
- Design, code, test, debug, maintain, and document programs for web applications and software tools.
- Contribute to the planning and development of project solutions based on client requirements and business objectives.
- Develop and optimize web applications, ensuring alignment with project timelines and goals.

IT gateway – Data Engineer Trainee Aug. 2023 – June 2024

- Gather and meticulously document functional requirements for IT Gateway projects
- Deliver comprehensive training status updates regularly during daily standup meetings
- Integrate data from various sources using SQL, generating extensive data sets and reports tailored to meet the needs of end users.
- Skillfully track project tasks in JIRA, ensuring timely completion and adherence to project timelines.
- Collaborate closely with project coordinators to understand flow designs and implement solutions

Marist College – Technical Support Consultant, Quality Assurance Analyst July 2022 - May 2023

- Conducted validation testing for Learn Management System upgrades, resulting in improved system functionality
- Performed software risk assessments alongside a global technical community(Sakai) to identify potential issues and ensure optimal LMS performance
- Led the QA team, fostering a collaborative environment with technical professionals and student colleagues and contributing to streamlined testing processes

EPAM systems – Intern – Pre Education Program(PEP) Jan 2020 - Jun. 2020

- Participated in team meetings and discussions, gaining insights into Agile development methodologies.
- Acquired knowledge in software engineering principles, object-oriented design, and quality assurance processes.
- Actively engaged in learning opportunities, attending webinars and workshops to expand technical skills.
- Attended Pre Education Program (PEP) conducted by EPAM Systems India Pvt Ltd, participating in 13 online webinars covering beginner-level modules on various software engineering topics.

LEADERSHIP ACTIVITIES AND VOLUNTEER EXPERIENCE

Project User-Customizable Product Design Website and Application with Payment Integration

Capstone Project - Fellow

- Engineered a user-friendly website and application enabling customers to create bespoke products, driving a notable 20% elevation in customer satisfaction.
- Gathered and studied requirements to ensure alignment with user needs.

845-484-9756 | deshamonithanusri06@gmail.com | <https://www.linkedin.com/in/thanusri-deshamoni>

Digital Education – Student Employee (Fellow)

- Provided leadership as head of the QA team, fostering collaboration and streamlining testing processes
- Led scripting sessions and contributed in meetings for Sakai, ensuring project alignment and cohesion.

CERTIFICATIONS

• Salesforce Certified Administrator	March 2025
• Pre-Education Program (PEP 2022) - EPAM Systems	Jun. 2020
• IBM Enterprise Design Thinking Practitioner Certification.	Feb. 2023
• Data Processing Specialist, Software Development Trainee - Aspiring Minds	Jan. 2021

TECHNICAL SKILLS

Programming Languages: Java, Python, C, JavaScript, SQL, TypeScript

Web Development: HTML, CSS, React, Node.js, Django, C#, Bootstrap, jQuery

Databases: MySQL, MongoDB, SQL Server, PostgreSQL

Tools & Technologies: Git, Eclipse, Android Studio, Selenium, Power BI, DataBricks, JIRA, Jenkins, Docker, Kubernetes

Software Development: Agile methodologies (Scrum, Kanban), Object-Oriented Design (OOD), RESTful API development, Version Control (Git), Unit Testing, Continuous Integration/Continuous Deployment (CI/CD)

UI/UX Design: UI/UX best practices, Responsive Design, Wireframing, Mockups (Figma, Adobe XD), Frontend Development (HTML5, CSS3, JavaScript frameworks)

Data Engineering: Data Integration, ETL Processes, Data Analysis, Data Visualization, Reporting, SQL Query Optimization, Data Modeling

Project Management: Sprint Planning, Task Tracking, Collaboration, Client Requirement Gathering, Cross functional Team Coordination, Time Management, Documentation

Cloud Technologies: AWS (EC2, S3), Azure, Google Cloud Platform (GCP)

Soft Skills: Problem-Solving, Communication, Leadership, Teamwork, Mentoring, Client-Focused Solutions, Documentation
